

Gunbarrel

GOLD

- ▲ Approximately 40 km of strike in NE Goldfields Greenstone Belt
- ▲ Gunbarrel greenstone belt lies between two major Au provinces - Yandal in the west and Duketon in the east
- ▲ Strong Au core/RAB evidence of large mineralised zones: Southern, Taipan, Eureka North
- ▲ Limited drilling >100 m vertical
- ▲ Multi-layered data set
- ▲ Target corridor for gold (12x3 km) marked by gold nugget finds and geochemical anomalies in laterite (centred on Graff's Find and Southern)
